

The chart displays a positive correlation between the number of publications and the number of citations. The x-axis, 'Number of publications', ranges from 0 to 10,000, and the y-axis, 'Number of citations', ranges from 0 to 1,000. The data points are categorized by color and size, representing different levels of publication and citation counts. The largest and most numerous points are concentrated in the upper right quadrant, indicating high citation counts for a large number of publications. Smaller points are scattered across the lower left and middle sections of the chart.

 $\lambda = 16.1$  $\lambda = 16.1$

A bubble chart with eight horizontal rows. Each row contains a gray bubble of a specific size on the left and a numerical value on the right. The bubbles decrease in size from top to bottom, corresponding to the decreasing numerical values.

Age Group	Number of People
18-24	175
25-34	70
35-44	46,7
45-54	34
55-64	13
65-74	8
75-84	7
85+	6

A bubble chart where the size of each bubble represents the number of people in a specific age group. The bubbles are arranged vertically, with the largest bubble at the top and the smallest at the bottom. The age groups and their corresponding number of people are listed to the right of each bubble.

Age Group	Number of People
17-19	215
20-29	70
30-39	46,7
40-49	34
50-59	13
60-69	8
70-79	7
80+	6

A bubble chart with a vertical axis representing age groups and a horizontal axis representing the number of people. The age groups are: 70, 46,7, 34, 13, 8, 7, and 6. The number of people for each age group is represented by the size of the bubble and the corresponding number next to it. The numbers are: 70, 46,7, 34, 13, 8, 7, and 6.

Age Group	Number of People
70	70
46,7	46,7
34	34
13	13
8	8
7	7
6	6
